LITTER PICK 2025

On Sunday September 7th a band of willing villagers combed the hedgerows in and around the village collecting, between them, over 20 bags of rubbish. Many thanks to all who

helped. The combined effort made a big difference. Although we realise most of the rubbish is thrown out of passing cars and not by residents, it would be really helpful if you all kept the areas outside of your property clear of rubbish. The village would be a much cleaner and more pleasant environment to live in.

Pictured - many of the great volunteer Litter Pickers – Thank You

HAVERING PARK PLOTLANDS

Simon Donoghue, our local history Librarian, based in the local studies library at the Central Library, has researched a very interesting article on the Havering Park plotlands. The Facebook article can be found by typing into the Facebook search:

[Havering Park Plotlands and the creation of... - Havering Libraries | Facebook](#)

If anyone in the village had relatives living in the plotlands or has close connections to someone who did please get in touch.

DOG LITTER

One of the things we noticed when picking up the rubbish was the amount of dog mess left around. If you walk your dog in the village **PLEASE PICK UP YOUR DOG'S MESS**. Whether it is on the pavement, on the grass or in the gutter. It is very anti social to leave it. **Thank you**

AGM Changes to the Constitution

AGM on Wednesday 19th November 2025

In order to make the committee as effective as possible and be able to draw on people who may live outside the HABCOS membership area, but who have close association with the village, we are proposing two changes to the constitution.

The area covered by HABCOS is defined in the constitution. Originally it was intended to link the existing village boundaries, irrespective of their origins, with our views of where the boundaries lie from a commonsense perspective. Although the stables and coach house were included, Havering Park Farm was not as it is lying across the river. We think the area of the farm should be included thus going a long way to unifying the McIntosh estate within the HABCOS boundary. A plan will be available at the meeting.

When looking into the boundary limits we realised that, constitutionally, we could not co-opt anybody onto the committee who was not a resident within the HABCOS boundary. Having made an error ourselves, we realise that it could be useful if the committee could co-opt non-residents who are genuinely interested in the village. At all times the interests of the village will be paramount.

We will put on the agenda at the next AGM the boundary change and that the current clause which states:

6.5 The Committee shall have the power to co-opt members to fill vacancies be changed to:

6.5 The Committee shall have the power to co-opt either members or non-members. Those co-opted will have to be specifically put forward for re-election at every subsequent HABCOS AGM.
